

## WELCOME!

### Higher Education for Sustainability – Collaborating and Monitoring - Spring Campus: Workshop II -

#### *Institutionalisation of ESD*

Insa Otte, Antje Brock, Theresa Grapentin, Inka Bormann

2

## 1.1 Stages

1. Legitimation and justification of sustainability as a political objective
2. Politicization of Education: relevance of education in dealing with political tasks
3. Pedagogical processing of political challenges: education for sustainable development
4. Political and scientific anchoring of Education for Sustainable Development
  - UN Decade ESD 2005-2014
  - Global Action Programme ESD 2015-2020
  - Transfer and stabilization ??

3

## ESD institutionalisation

1. From the beginning to the present - institutionalization, subjects and current developments of / in ESD
  - 1.1 stages of institutionalization of education for sustainable development
  - 1.2 subjects of sustainability in education
  - 1.3 current priorities in ESD research (in Germany)
2. Innovation and Transfer
  - 2.1 innovation, innovativeness, transfer
  - 2.2 criteria of successful transfer

2

## 1.2 Subjects

1. Sustainability as an object of education
2. Development of an independent concept of Education for Sustainable Development
3. Scientification of Education for Sustainable Development
4. Transfer and integration of Education for Sustainable Development

4

### 1.3 Current priorities

1. Actor constellations and networks in the implementation of Education for Sustainable Development
2. Quality documentation, -assurance and -development
3. Measurement of Education for Sustainable Development

5

### 2.2 Criteria of successful transfer

„History“ of the institutionalization of ESD itself tells a story about the transfer of an innovation in the education system

- Transfer
  - not only the quantity of involved organisations/actors/... counts, but the quality of their involvement in terms of
    - duration
    - depth
    - range
    - shift in ownership (C. Coburn)

7

### 2.1 Innovation, innovativeness and transfer

„History“ of the institutionalization of ESD itself tells a story about the transfer of an innovation in the education system

- Innovation: Co- construction/design, dependent from knowledge, circular process
- Innovativeness: Quality of individuals and systems  
Chance to change
- Transfer: Distribution and embedding of innovations  
„Sustainability“ of change
