

Freie Universität  BerlinLIAISON OFFICE
NEW DELHI

FUINDNEWS

2013
Dec

For the New Delhi Office of Freie Universität Berlin 2013 was an exciting year with the official registration of the New Delhi Office; with DWIH – German House of Science and Innovation - starting its first exhibitions called 'Excellence on Tour', at Hyderabad and Ahmedabad; with new MoUs signed with IIT Madras and drafted with University of Hyderabad – and with Sanju Kumari, the heart of our Delhi office, becoming a mother after having given birth to a boy. In 2013 we started to stay in contact with you through an electronic NEWSLETTER. This issue is the fifth so far.

The last event of this year was a lecture on "How genomics change our understanding of infectious diseases" delivered on 1st of December at IIC Delhi by Prof. Wieler, Director Institute of Microbiology and Epizootics and speaker of the International Research Training Group 'Functional Molecular Infection Epidemiology' of the University of Hyderabad and Freie Universität Berlin. The ones, who could not participate, really missed out on something. The presentation was extraordinary instructive, not only for specialists but for amateurs like myself as well. Please, enjoy some photographs of that alumni event above.

Though the lecture was inspiring, we have learnt that we have to change the format of our alumni meetings. Therefore, we invite and encourage you to send suggestions and proposals, best before end of January 2014. We will use the next Newsletter as a platform to exchange views for further interactions. The proposals could include social events but workshops and seminars on scientific topics for alumni and young scientists and scholars as well.

Now is the time to convey to all of you the best wishes for a successful year 2014!

Ulrich Podewils

Don't miss the "DWIH New Delhi - Excellence on Tour" in Kolkata, 21-28 March, 2014!

- Medicine / Physiology
- "Green" Life Sciences
- Physics / Mathematics / Geo Sciences
- Chemistry & Process Engineering
- Engineering / Informatics
- Humanities & Social Sciences

CALL FOR APPLICATIONS
for students from any field of Science/Humanities/Social Sciences
Deadline for Applications: Monday, 13th January 2014

- What is a science slam?** It's an unconventional way to bring together passionate researchers and the curious public. Bring science on stage! Compete for the hearts of the audience by your performance in a maximum of ten minutes.
- What do you need?** Excellent knowledge of your research subject, your courage & presentation skills.
- How should a Slam look like?** You are the best judge! Be creative! Be funny! Any format is allowed, from the conventional talk to a stage play or musical performance. Just respect the time limit of ten minutes.
- How do you benefit?** Apart from exposure to other fields of science and a new experience, the winner will have a chance to spend two months with an eminent research group in Germany.

Eligibility

- Students, registered for M.A., M.Sc., M.Phil. or Ph.D. with a recognized Indian University/Institutes
- or
- Post-docs (up to 8 years of completion of Ph.D.)

Send your applications along with a photograph to: info@dwih.in
(Please write "Application for the Science Slam" and your name in the subject line)
