On April 8–9, 2013, Stiftung Charité, Charité – Universitätsmedizin Berlin, and the Max Delbrück Center for Molecular Medicine (MDC) will host the 6th Charité Entrepreneurship Summit in Berlin. Attendees will include entrepreneurs, innovators in life sciences, and investors from across Germany, Europe, and the US. In addition, the Summit has become a magnet for entrepreneurial physicians, tech transfer managers, start-up experts, lawyers, and a plethora of leaders and innovators in health care.

Keynotes, panels, and working groups on our Hot Topic 'Mobile Health' will show how mobile technology is reshaping healthcare. In addition, three Charité Windows (Alzheimer's Disease, Geriatric Medicine, Oncology) will highlight successful models of cooperation between academia, care providers, policy makers, and industry to find solutions for the major problems of tomorrow's medicine. Interactive working groups on topics such as 'Intellectual Property', 'Technology Commercialization', and 'Sources of Early Financing', as well as on 'Building the Winning Team', 'Achieving Success through Failure', and 'What's Wrong with Your Pitch' provide the opportunity to learn from successful founders, CEOs, investors, and other experts. For researchers in the life sciences, physician scientists with business ideas, business graduates (MBAs), and experienced entrepreneurs looking for business ideas we offer the module Business Speed Dating.
