40th anniversary of the cooperation with Sciences Po

On September 23rd, Freie Universität celebrated 40 years of cooperation with the French partner university Sciences Po. The partnership, which began in the 1980s before the establishment of the Erasmus program, now includes a joint Master's course in Paris as well as a double Bachelor's course with the Sciences Po Campus in Nancy.

BeCOIL complementary program in winter semester 2024 for cooperation in international projects

Our complementary program offers a laid-back environment for staff to engage with and learn about the COIL teaching format. We use the experiences and impressions of all participants to gain practical tips for our own projects and to learn from each other. All events are led by an experienced COIL moderator who will assist in case of questions or worries.

Winners of the 3. German-Brazilian EdTech Hackathon are decided

On August 10, the jury of the 3. German-Brazilian EdTech Hackathon selected the Green Seed project as the winner. This project uses educational toys and an app to teach children how to dispose of organic waste correctly and how to preserve plant biodiversity. Second and third place went to the projects aiinclusion, which aims to facilitate learning for pupils with disabilities, and E-Braile, which has developed a Braille device with image descriptions.
