ELECTRONIC RESOURCES IN THE UV

E-RESOURCES MANAGEMENT

- ❑ Journals, DDBB and e-books
- ❑ Individual titles and collections
- ❑ Publishers, aggregators, agents
- ❑ Subscription, perpetual purchases, archive purchases
- ❑ New models of acquisition: EBS, DDA

What is DDA

- ❑ New e-book acquisition system.
- ❑ The library selects what e-books will be available to patrons by the use of inclusion and exclusion criteria.
- ❑ The library offers access to e-books.
- ❑ Users buy e-books when they use them: if they click on the link and read the book more than 5 minutes, or if they print some pages, the books will be bought by them.

First round

- Points to be consider:
 - Pre-paid deposit
 - Subject: Psychology
 - Configuration: 1 loan + 1 purchase

First round

- **Procedure:**
 - Bibliographical records in catalogue
 - Activation in Serialssolutions >> Summon
 - Order records for final purchases
 - Records deleted / untracked in SS

First round: Results

- Available e-books: 355 + 4.458: 4.813
- Purchased e-books: 20 (medium price 72€)
- Generated loans: 70 (medium price 27€)
- 22% purchases, 78% loans
- 48% expense in purchases, 52% expense in loans

What have we learnt?

- The number of available books must be very high
- We have to avoid expensive loans
- Workflow is changing
- We are conditioned by work tools: catalogue, serials solutions...

Second round

- **Points to be consider:**
 - Deposit divided in two founds
 - Subjects: Psychology and Social Sciences
 - Configuration: 2 loans + purchase ; Price limits (mediated loans and purchases)

Second round

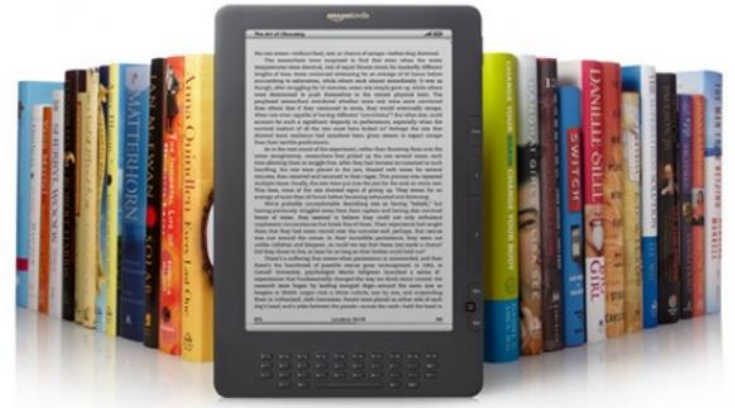

- **Procedure:**
 - We do not load bibliographical records in catalogue
 - Activation in Serialssolutions >> Summon
 - Only bibliographical and order records for definitive purchases

Second round: RESULTS

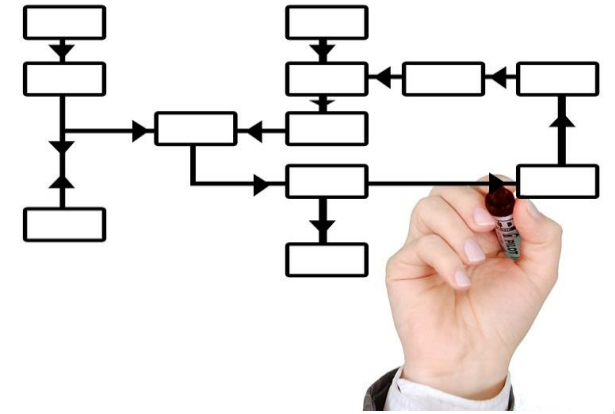

- Very soon for results
- Available e-books: 16.732
- Purchased e-books: 24 (medium price 96€)
- Generated loans: 114 (medium price 24€)
- 17% purchases, 83% loans
- 45% expense in purchases, 55% expense in loans

Evaluation

- Regarding the books:
 - High percentage of Spanish books
 - A good subject selection produces suitable purchases and fills the gaps in the collection

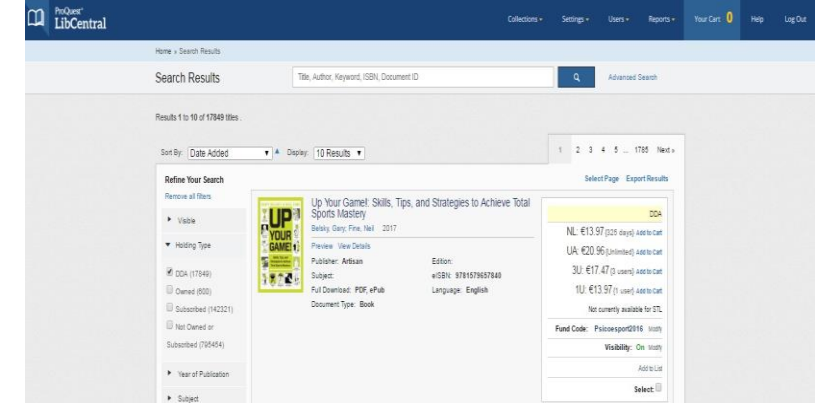

Evaluation

- Regarding the workflow:
 - Involve acquisitions /cataloguing sections + central services
 - New library systems: goodbye to use different platforms

Evaluation

- Regarding the platform:
 - It allows multiple choices
 - Very fast mediated loans and purchases management
 - Librarian control

Evaluation

- Regarding the users:
 - They have to register
 - Normally teachers / phd users
 - High satisfaction
