

The liaison offices in Cairo, São Paulo, New Delhi, Beijing and Moscow are part of the division IV, International Affairs - Center for International Cooperation. General questions regarding the liaison offices can be sent to cic@fu-berlin.de.

The EU liaison office in Brussels is a joint institution of the Berlin University Alliance, consisting of Freie Universität Berlin, Humboldt-Universität Berlin, Technische Universität Berlin, and Charité Universitätsmedizin Berlin.

Freie Universität Berlin is actively involved in the global network of German Centres for Research and Innovation (DWIH) and contributes to the visibility of Germany as a center of research and science as well as to the international connections of Freie Universität. The liaison offices are part of the DWIH in Moscow, New Delhi, and São Paulo; in Tokyo and New York, Freie Universität is an associate and thus part of the extended DWIH network.

Freie Universität maintains a worldwide network of liaison offices. Their job is to support the university's researchers in reaching out internationally, to increase the university's visibility in the region, and to recruit outstanding young researchers.

The network of Freie Universität comprises five offices, located in Beijing, Cairo, New Delhi, Moscow, and São Paulo. Scientists and scholars from Freie Universität can contact the liaison offices directly at any time. The offices' academic foci vary by location.

Freie Universität Berlin Liaison Offices

Services and information for researchers
of Freie Universität Berlin

Skills and Services

The liaison offices in **Cairo**, **New Delhi**, **Moscow**, **Beijing** and **São Paulo** maintain local networks, know the science infrastructure and support researchers of Freie Universität Berlin. With their regional expertise and local networks, they offer the following services:

- Assistance with identifying suitable foreign cooperation partners and establishing international contacts
- Support in recruiting junior scholars and scientists, for instance by disseminating information on programs at Freie Universität (e.g. doctoral scholarships and postdoc positions) or, in individual cases, by screening applications
- Marketing academic and doctoral programs at Freie Universität
- Publicizing new research projects and discoveries stemming from research at Freie Universität (through websites, newsletters, mailing lists, etc.)
- Assisting researchers from Freie Universität in organizing conferences and other events abroad
- Providing information on new developments in academia and research in the target countries and regions (such as information on new scholarships, grants, or research programs)
- Organizing and supporting international alumni activities
