

## Expression of Interest for Hosting a Marie Skłodowska-Curie Postdoc Fellow

Department/Institute
<p><b>Freie Universität Berlin</b>            Department of Mathematics and Computer Science            Institute of Computer Science</p>
Scientific requirements & topic for postdoc position
<p>Post-doc Position in the area of Human-Centered Computing with special emphasis on virtual community mining for augmenting human cognition and digital learning processes.</p> <p>The mission of the Human-Centered Computing Group is to research and design computational systems that make interactions between users, information and software both more useful and enjoyable. In our software development practice, we focus on user-centered design processes.</p> <p>Since this is an interdisciplinary field, our research work considers insights from fields such as visual and interaction design, web technologies, semantic technologies, and the social sciences. We apply quantitative (e.g., network analysis) and qualitative research (e.g. field interviews) methods in our projects.</p>
