

TÜV Rheinland India: Management Consulting Intern

The TÜV Rheinland Group is a leading provider of technical services worldwide. In India we are adapting our Testing, Inspection and Certification services to the fast developing market. This business environment creates unique challenges and asks for innovative strategies.

As the Management Consulting Intern you will be working in close relationship with the management. You will execute several strategic projects and be independent in your work. This will include the possibility to identify and conduct personal projects on your own.

Your tasks

- Diverse tasks directly from the management
- Project management between various stakeholders in creating world class testing laboratories
- Analysis of the data and reporting of the results
- Analyzing of existing and establishing of new processes which can be a beneficial for the organization

Your profile

- Advanced Bachelor's or Master's student or recent graduate in Business Administration, Economics or similar studies
- Excellent German and English language skills
- Strong analytical and critical thinking skills
- Ability to work independently
- High proficiency in MS Office, especially presentation creation experience
- Previous experience abroad as well as experience in market research is an advantage

We offer

- The unique possibility for you to learn how an international company is run
- To gain working experience in India and one of its most progressive cities
- Accommodation in the company's guest house
- Provision of your flights, airport pick-up and a compensation to cover your living expenses
