Special Thanks :

Introduction of Conference

The cooperation fair of overseas talent recruitment project in ten fields of Jiangsu Province in 2017, focusing on internationalization, high-end, specialization and precision, mainly introduces the high-end talents and talent teams, and constantly improve the international competitiveness of cultural industry in Jiangsu.

Welcome to Jiangsu, this beautiful and innovative city!

1. Nanjing University of Science and Technology

Located in the ancient capital of Nanjing, Nanjing University of Science and Technology, a part of Ministry of Industry and Information Technology of the People's Republic of China, is a national key university. The university is the first batch of national key construction institutions for "211 Project" and key construction university of "985 innovation platform for superiority subject", which is engineering-based, with Science, engineering, literature, economics, management, law, education and other multi-disciplinary comprehensive and coordinated developing. There are 14 professional faculties in the university, and exist two first-level disciplines and four secondary disciplines of national key disciplines, 16 post-doctoral research station for the first-class disciplines, 18 first-level disciplines doctoral degree point, 116 master's degree, and 67 undergraduate majors distributed in seven disciplines of engineering, science, culture, economics, management, law and arts. The university has the right to examine the qualifications of the professor as a whole and can add doctoral tutors. It has a staff of more than 3,200 people, more than 1,900 full-time teachers, 405 professors, 667 associate professors. Among them, nine academicians, "thousands of people planning" national special expert 10 people, "Chang Jiang Scholars" 12 people, the government special allowance winner 192 people. In the north by Purple Mountain, west of the city wall, the campus covers an area of 3118 acres. In the harmony with Sun Yat-sen Mausoleum Scenic Area, there are ponds with glistening tilting waves, trees with verdant color, green grass and pleasant scenery, which is an ideal garden for self-cultivation.

Nanjing University of Science and Technology

Demand Position

Demand Position :

6 personnel for teaching and research

Demand Specialties:

1. Industrial robots, intelligent equipment manufacturing, construction machinery, aerospace equipment, rail transport, new power equipment
2. High performance carbon fiber, graphene, nano materials, membrane materials, high-temperature superconducting materials, energy materials, metal materials

3. Pollution control, wastewater treatment, flue gas desulfurization, denitrification, removal of dust and organic gas purification, recycling of solid waste
4. New generation of information technology, cloud computing, big data, networking, integrated circuits and special equipment, network communications equipment, operating systems and industrial software
5. Large scale energy storage, distributed energy system integration, new generation photovoltaic, low speed wind turbine, wind power control system and equipment
6. Industrial design

Basic requirements: Doctor and postdoctoral of overseas famous schools; high-level scientific research personnel of well-known enterprises or research institutions

Introducing mode: Full-time job for teaching and research

Provide Treatment Safeguard Policies: Negotiable

2. China Pharmaceutical University

China Pharmaceutical University, located in Nanjing, Jiangsu Province, is an university with distinctive specialist characteristics, which is key construction of national “211projects” and directly under the Ministry of Education. Since its establishment in 1936, with 80-year development, China Pharmaceutical University has had first-class pharmacy-related specialty and innovative platform and complete system of pharmacy discipline and has become one of the most famous pharmaceutical colleges in pharmaceutical research. The university has 13 departments, 25 undergraduate majors, 2 first-level disciplines doctoral degree point of Pharmacy and Science of Traditional Chinese Medicine, 24 second-level disciplines doctoral degree point, 5 first-level disciplines master degree point, 37 second-level disciplines master degree point. The school has 2 post-doctoral research stations of Pharmacy and Science of Traditional Chinese Medicine, and can receive postdoctoral personnel in 23 specialties. In the national academic evaluation organized by China Academic Degree& Graduate Education Development Center, the discipline of pharmacy and traditional Chinese medicine has always been among the best. ESI rankings of pharmacology and toxicology, chemistry and clinical medicine into the top 1%.

China Pharmaceutical University

Demand Position

Demand Position 1:

One national youth talent

Demand Specialties: Biotechnology, anti-tumor antibodies, anti-tumor proteins, biological agents, nanomaterials, heavy metals and wastewater treatment

Basic requirements: Postgraduate doctor

Introducing mode: Full-time job for teaching and research

Salary standard: Annual salary of 500,000 yuan, housing subsidies of 700,000 yuan and research funding of 2,000,000 yuan

Demand Position 2:

One distinguished Researcher

Demand Specialties: Biotechnology, anti-tumor antibodies, anti-tumor proteins, biological agents, nanomaterials, heavy metals and wastewater treatment

Basic requirements: Postgraduate doctor

Introducing mode: Full-time job for teaching and research

Salary standard: Annual salary of 350,000 yuan, housing subsidies of 500,000 yuan and research funding of 2,000,000 yuan

Demand Position 3:

One associate researcher

Demand Specialties: Biotechnology, anti-tumor antibodies, anti-tumor proteins, biological agents, nanomaterials, heavy metals and wastewater treatment

Basic requirements: Postgraduate doctor

Introducing mode: Full-time job for teaching and research

Salary standard: Annual salary of 250,000 yuan, housing subsidies of 300,000 yuan and research funding of 1,000,000 yuan

3. Nanjing Normal University

Nanjing Normal University

Demand Position

Demand Position 1:

Teachers

Demand Specialties

1. Intelligent manufacturing equipment
2. New Electric Power Equipment
3. Large - scale energy storage
4. Large - scale energy storage
5. New generation of photovoltaic
6. Low-speed wind turbines
7. Offshore wind turbine and key components
8. Wind power control system and equipment
9. International accounting
10. Agricultural information, processing marketing
11. Human resources services
12. Internet of things
13. Cloud computing

14. Big data
15. New generation information technology
16. Mobile multimedia
17. Industrial design
18. New energy
19. Energy saving and environmental protection
20. Geographic information technology, soil remediation

Basic requirements: Doctoral personnel or above with related specialties; Master's degree or above in some specialties; People with senior professional titles first

Introducing mode: Full-time or part-time job

Salary standard: Negotiable

4. Nanjing University of Finance & Economics

Nanjing University of Finance & Economics

Demand Position

Demand Position:

3 personnel of teaching and research

Demand Position:

1. Cloud computing
2. Big data
3. Modern logistics
4. Processing marketing

Basic requirements: Doctor's degree

Introducing mode: Full-time introducing / flexible introducing

Salary standard: Negotiable

5. Soochow University

Located in the ancient city of Suzhou known as the "paradise on earth", Soochow University is the key construction university of the national "211 Project" and the first batch of colleges and universities accredited by the "2011 Plan". It is a key comprehensive university in Jiangsu Province. Soochow University exists 12 major disciplines, such as Philosophy, Economics, Law, Education, Literature, History, Science, Engineering, Agriculture, Medicine, Management, Art, as well as 134 undergraduate specialties; 48 first-level Master's degree authorization, 24 first-level Doctor's degree authorization, 29 post-doctoral research stations; 4 national key disciplines, 8 advantage disciplines among Jiangsu universities, 12

disciplines key disciplines of provincial level, 5 Jiangsu Provincial key sequence disciplines. There are seven disciplines of chemistry, physics, materials science, clinical medicine, engineering, pharmacology and toxicology, biology and biochemistry entering the top 1% of the world's ESI (basic scientific indicators). At present, there are 5263 faculty members, including 6 academicians of Chinese Academy of Sciences and Chinese Academy of Engineering, 1 foreign academician, 11 candidates of the "Thousand Talents Program", 42 candidates of the "Young Overseas High-level Talents Introduction Plan", 7 distinguished professor of Chang Jiang Scholars Program, 18 winners of the National Outstanding Youth Fund Award, 29 winners of National Outstanding Youth Fund Award, and 2453 personnel with deputy senior title or above.

Soochow University

Demand Position

Demand Position:

Teachers

Demand Specialties:

1. Rail transit
2. Intelligent manufacturing equipment
3. High-end special equipment
4. Short supply equipment
5. Large scale energy storage
6. New generation photovoltaic
7. Nuclear grade key material
8. High-performance carbon fiber
9. Graphene
10. Nanometer material
11. Green new materials
12. High temperature superconducting material
13. New electronic materials
14. Advanced energy materials
15. Ceramic membrane and other efficient separation membrane material
16. High-performance metal materials
17. Advanced energy materials
18. Heavy metal and wastewater treatment
19. Prevention and control of pollution
20. Big data
21. Cloud computing
22. New generation of information technology
23. Integrated circuit and professional equipment
24. Internet of things
25. Operating system and industrial software

26. Antitumor antibody
27. Antitumor protein
28. New vaccines
29. Biological agent
30. Wearable devices
31. High-performance medical equipment
32. Artificial organs
33. Medical robot
34. Electronic Commerce
35. Modern logistics, human resources services
36. Industrial design
40. Asset Securitization
41. The internet finance
42. International accounting
43. Logistics finance
44. Mobile multimedia
45. Digital publishing
46. Cultural and creative design
47. Cultural investment and financing
48. Virtual reality technology
49. Anime game
50. Music
51. Biotechnology
52. Livestock, poultry and aquatic products
53. Eco-friendly
54. Processing marketing
55. Agricultural machinery
56. Leisure tourism (Plant application and ecological design)

Basic requirements: Overseas world famous doctor graduate, or more than two years of overseas research work experience

Introducing mode: Full-time introducing / flexible introducing for teaching and research

Salary standard: Negotiable

6. Nantong University

Nantong University is located in Nantong City, Jiangsu Province, a coastal city known as the reputation of "the Pearl on the river and sea" and "historical and cultural city". It is a comprehensive university built by People's Government of Jiangsu Province and Ministry of Transport. Nantong University has four campuses, covers an area of more than 3700 acres. And there are 25 colleges and a large comprehensive tertiary A-level affiliated hospital. Approved by the State Council, Nantong University is the first batch of units with rights to grant master's degree. And in 2003, it formally became doctor's degree granting unit. Now, there are 3 doctor's degree authorization points of of basic medicine, clinical medicine,

information and communication engineering; 2 post-doctoral research stations of basic medicine, clinical medicine; 17 first-level Master's degree authorization points, 4 Master's degree authorization points. There are 97 undergraduate majors, covering 10 disciplines of Literature, Science, Engineering, Medicine, Art, Economics, Law, Education, History, and Management.

Nantong University

Demand Position

Demand Position 1:

Dean of Business School

Basic requirements: Doctor's degree of overseas famous universities, or having work experience with 3or more years

Introducing mode: Full-time introducing / flexible introducing or teaching and research

Salary standard: Annual salary of 400,000 -1,200,000 yuan

Demand Position 2:

Teachers of Business School

Demand Specialties: Electronic Commerce

Basic requirements: Excellent Ph. D or assistant professor of overseas famous universities

Introducing mode: Full-time introducing / flexible introducing or teaching and research

Salary standard: Annual salary of 300,000 yuan

Demand Position 3:

Teachers of Business School

Demand Specialties: Human resources services

The internet finance

Modern logistics

Basic requirements: Doctor's degree

Introducing mode: Full-time introducing / flexible introducing or teaching and research

Salary standard: Negotiable

Demand Position 4:

Teachers of School of Mechanical Engineering

Demand Specialties: Construction machinery

Industrial robot

Intelligent manufacturing equipment

Large scale energy storage

High-performance metal materials

Basic requirements: Doctor or associate professor of overseas famous universities or personnel with quite academic level
Introducing mode: Full-time introducing / flexible introducing or teaching and research
Salary standard: Negotiable, annual salary is not less than 400,000 yuan

Demand Position 5:

Dean of Medicine

Basic requirements: Doctor's degree of overseas famous universities, or having work experience with 3or more years
Introducing mode: Full-time introducing / flexible introducing or teaching and research
Salary standard: Annual salary of 400,000 - 1,200,000 yuan

Demand Position 6:

Dean of School of Physical Education

Basic requirements: Doctor's degree of overseas famous universities, or having work experience with 3or more years
Introducing mode: Full-time introducing / flexible introducing or teaching and research
Salary standard: Annual salary of 400,000 - 1,200,000 yuan

Demand Position 7:

Teachers of School of Pharmacy

Demand Specialties: Pharmaceutics, Medicinal chemistry
Basic requirements: Doctor's degree
Introducing mode: Full-time introducing / flexible introducing or teaching and research
Salary standard: Annual salary of not less than 400,000 yuan

Demand Position 8:

Teachers of School of Transportation

Demand Specialties: Rail transit, Internet of things
Basic requirements: Doctor's degree
Introducing mode: Full-time introducing / flexible introducing or teaching and research
Salary standard: Annual salary of not less than 400,000 yuan

7. Jiangsu Academy of Agricultural Sciences

Jiangsu Academy of Agricultural Sciences, directly under Jiangsu Provincial People's Government, is a provincial comprehensive agricultural scientific research unit. Its predecessor is the central agricultural experiment founded in 1932, which is located in the beautiful scenery of the southern foot of Tzu-chin Mountain of Nanjing city. The main task of

Jiangsu Academy of Agricultural Sciences is: According to the strategic objectives of agriculture and agricultural science and technology development determined by the State and Jiangsu Province, the research on applied basic research and application of agriculture will be carried out, which will provide important scientific and technological support for the development of agriculture and rural economy in the whole province and even the whole country. Jiangsu Academy of Agricultural Sciences has 24 research institutes, the existing 2,00 employees in the series, of which 1 academician, 4 people selected "National Millions of Talents Project", enjoy the State Council special allowance 211 people enjoying special allowance of the State Council, 101 experts with provincial or national outstanding contribution, 898 people with senior titles, Dr. 505 people. The academy of sciences has a number of national engineering research center, national center for crop improvement, national and provincial key laboratories, engineering technology center, national excellent postdoctoral research station, graduate education center, whose comprehensive strength is in the forefront among other provincial agricultural scientific research units.

Jiangsu Academy of Agricultural Sciences

Demand Position

Demand Position 1:

Institute of Agricultural Resources and Environment

Demand Specialties: The field of ecological environmental protection and modern agriculture

Basic requirements: Doctor's degree

Introducing mode: Full-time introducing / flexible introducing or teaching and research

Salary standard: Negotiable

Demand Position 2:

Modern Agriculture Ecology Laboratory

Demand Specialties: Construction of ecological room

Basic requirements: Doctor's degree

Introducing mode: Full-time introducing / flexible introducing or teaching and research

Salary standard: Negotiable

Demand Position 3:

Institute of Agricultural Economics and Information

Demand Specialties: Agricultural information science
Computer science and technology
Control science and engineering
Crop cultivation and farming

Basic requirements: Doctor's degree or above

Introducing mode: Full-time introducing / flexible introducing or teaching and research

Salary standard: Negotiable

Demand Position 4:

Information Agriculture and Agrometeorology Laboratory

Demand Specialties: Construction of Laboratory

Basic requirements: Doctor's degree or above

Introducing mode: Full-time introducing / flexible introducing or teaching and research

Salary standard: Negotiable

Demand Position 5:

Institute of Equipment

Demand Specialties: Agricultural machinery

Basic requirements: Doctor's degree or above

Introducing mode: Engaged in vegetable planting, planting management, field harvesting and other aspects of mechanical research

Full time introduction or flexible introduction

Salary standard: Negotiable

8. Jiangsu Provincial Commission of Health and Family Planning

Jiangsu Provincial Commission of Health and Family Planning

Demand Position

Demand Position 1:

Clinicians

Demand Specialties: Reproductive medicine development and expansion

Diagnosis and treatment of pediatric internal medicine

Clinical and scientific research of rehabilitation medicine

Basic requirements: Doctor's degree, first - rate clinicians

Introducing mode: Full time introducing or flexible introducing

Salary standard: Negotiable

Demand Position 2:

Personnel for teaching and research

Demand Specialties: Anti-tumor antibodies, antitumor proteins, novel vaccines, biological agents, wearable devices and intelligent rehabilitation aids

Basic requirements: Ph.D Candidates

Introducing mode: Full time introducing/flexible introducing or teaching and research

Salary standard: Negotiable

Demand Position 3:

First - rate clinicians (Clinical teaching)

Demand Specialties: blood, ultrasonic, imaging, critical care, burn plastic surgery and nuclear medicine and radiotherapy

Basic requirements: Doctor's degree or above

Introducing mode: Full time introducing/flexible introducing or teaching and research

Salary standard: Negotiable

Demand Position 4:

First - rate clinicians (Project cooperation; Technology transformation)

Demand Specialties: Anti-tumor antibodies
Anti-tumor proteins
Novel vaccines
Biological agents
Artificial organs
High performance medical equipment
Medical robots

Basic requirements: Doctor's degree or above

Introducing mode: Full time introducing/flexible introducing or teaching and research

Salary standard: Negotiable

9. Jiangsu Provincial Department of Culture

Information Center of Jiangsu Provincial Department of Culture, formally established in May 2014, is equivalent to the full amount of funding institution. Its main responsibilities include: to assist in planning the province's informatization construction of cultural system and organize its implementation; responsible for portal and e-government network construction and maintenance of Jiangsu Provincial Department of Culture; to carry out information collection, processing, reporting and development and application for the whole province's cultural system. Since 2015, Information Center of Jiangsu Provincial Department of Culture officially launched the project of "Digitized Construction Management Platform for Jiangsu Culture", which integrates featured database and e-books

of the whole province 's libraries, digital museums and online exhibition hall and other digital resources and provides services in a unified platform. At the same time, combined with the cultural needs of the masses, Information Center introduces social digital cultural resources to protect the digital cultural resources for the dissemination of efficient and safe and orderly.

Jiangsu Provincial Department of Culture

Demand Position

Demand Position 1:

Big data analytics

Demand Specialties: Information and Computer Science

Basic requirements: Postgraduates

Introducing mode: Flexible introducing

Salary standard: Negotiable

Demand Position 2:

Promotion of cultural communication

Demand Specialties: specialties of journalism, social science and so on

Basic requirements: Postgraduates

Introducing mode: Flexible introducing

Salary standard: Negotiable

Jiangsu, China

Located in the central coast of eastern China and the Yangtze River Delta region, Jiangsu is one of the provinces with better economic development in China, whose total economic output ranks second in the country, regional development and people's livelihood index (DLI) ranks first in the country. In Jiangsu, there exists convenient transportation, water, land and air transportation network extending in all directions, the province's total highway mileage reaches to 4600 km, and high-speed railway can lead to Beijing, Shanghai, Hangzhou and other central cities, which stands the first on the list of traffic density among the whole country. Now, there are 9 civil airports in Jiangsu Province. Lukou International Airport, located in Nanjing, has more than 130 international and domestic airlines, possesses direct flights to Frankfurt and other European city.

Jiangsu is distinctive area with picturesque scenery, a long history and gathering of talents. As one of the birthplaces of Chinese Yangtze River culture, Jiangsu culture has inherited the essence of Chinese history and culture. Due to its unique geographical advantage, industry advantage and advantage of the human capital, culture in Jiangsu presents a distinctive characteristic of innovation, opening and blending of diverse cultures. In recent years, GDP of Jiangsu cultural industry accounted for 5%, which suggests that Jiangsu cultural industry has become a pillar industry in the province and been in the domestic leading position.

Address of the Conference

Freie Universität Berlin, Holzlaube (Raum SR 2.2058), Fabeckstr. 23 – 25, 14195 Berlin

Date:

Saturday, 14th January 2017, 14:00 – 18:00

Above units are listed in no particular order

If you intends to return to work or have the intention of cooperation, we sincerely invite you to the conference. And you can send your cooperation intention and CV to the email info@btt-berlin.de. Because the site of conference can accommodate a limited number of people, please register as early as possible. Early applicants have priority for limited seats of on-site interview.
