

Read and Publish

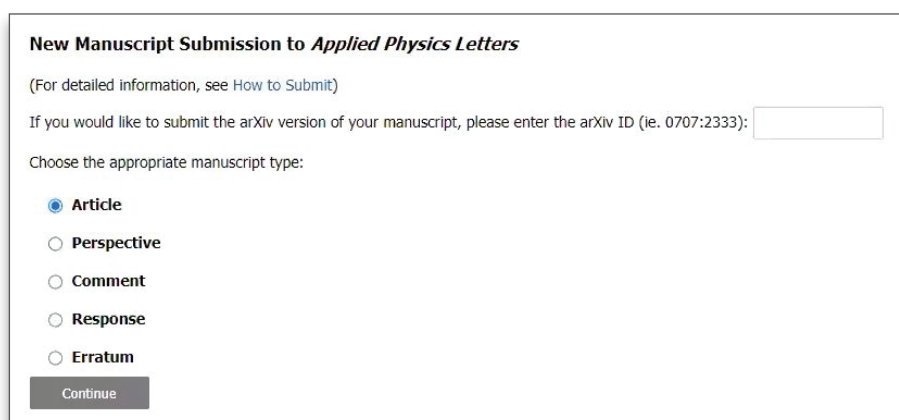

Guide For Authors

AIP Publishing has developed a seamless process for authors to make their articles open access (OA) as part of an institutional Read & Publish agreement. Just follow these simple steps.

1 After logging in select “submit manuscript.”

2 On the following screen you will need to select the type of manuscript you are submitting (“Article”), then “continue.”

New Manuscript Submission to *Applied Physics Letters*

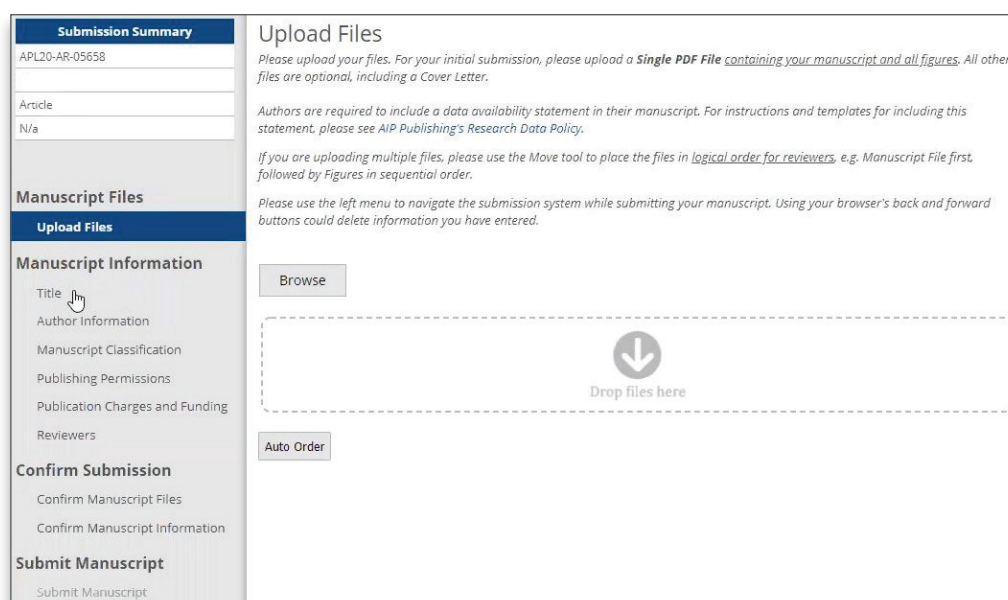

(For detailed information, see [How to Submit](#))

If you would like to submit the arXiv version of your manuscript, please enter the arXiv ID (ie. 0707:2333):

Choose the appropriate manuscript type:

- ☒ **Article**
- ☐ Perspective
- ☐ Comment
- ☐ Response
- ☐ Erratum

3 Upload your manuscript file(s).

Submit Manuscript

Submit Manuscript

Upload Files

Please upload your files. For your initial submission, please upload a **Single PDF File** containing your manuscript and all figures. All other files are optional, including a Cover Letter.

Authors are required to include a data availability statement in their manuscript. For instructions and templates for including this statement, please see [AIP Publishing's Research Data Policy](#).

If you are uploading multiple files, please use the Move tool to place the files in logical order for reviewers, e.g. Manuscript File first, followed by Figures in sequential order.

Please use the left menu to navigate the submission system while submitting your manuscript. Using your browser's back and forward buttons could delete information you have entered.

4

Provide some basic information about the article, including title and abstract.

Author Information

Please enter the information requested below. You can enter each author's information individually or use Email Lookup to search our database to locate existing accounts. Required fields are marked with an asterisk (*).

If author fields are minimized, use the "Edit" link to edit or add additional information for each author.

Please enter the names of all authors **in the same order in which they appear in the manuscript**. To reorder authors, place your cursor over the "Author #" and use drag and drop to move the author to the proper position.

Email Lookup

You may provide a list of email addresses in the text box below to see if there is a matching account for the author. Separate each email address by a comma or semicolon. You will have a chance to review and select which author accounts to include before their information is populated in the Authors section below.

Open Access and Licensing Options

Through Author Select, the journal offers authors the option to choose open access for their published articles. By supporting both publication and archiving costs through payment of a USD 3500 fee, authors may instruct the journal to provide free online access to the published article, in perpetuity, to any online user. In addition, authors will retain copyright to their articles, which will be published under a Creative Commons Attribution 4.0 International (CC BY 4.0) license.

The Editor(s) and reviewers are not informed of an author's choice concerning open access; thus, the author's decision in this regard will have no impact on any aspect of the peer review process or on an Editor's ultimate decision regarding publication. The peer review process will proceed normally regardless of the author's choice of conventional publication or open access publication.

Note: When deciding on participation in Author Select, authors should note that payment of the open access fee covers regular page charges but does not cover other publication charges, such as charges for reprints. Authors will be invoiced separately if reprint charges apply.

Do you wish to pay the Author Select fee (USD 3500) so that your manuscript, if accepted, is published with open access for all online readers?

☐ Yes, I intend to pay the Author Select fee and will follow the link provided for payment after acceptance.

☒ **I wish to publish Open Access as part of an Institutional agreement.** Our system has detected that your institution (below) has an existing agreement with AIP Publishing to support Open Access publication in this journal. If your article is accepted for publication while the agreement is active, your article will be published Open Access, and the fee for Open Access publication will be covered under the terms of the agreement.

Lunds Universitet

When an article is accepted for publication the system will check to verify the status of your institution's Read and Publish agreement.

If the agreement is still active, your institution will be notified to confirm that publication charges should be applied toward the agreement.

You will receive an invoice that shows that the APC has been paid for through their institutional Read and Publish agreement.

If the agreement has been exhausted or expired, you will be contacted with options for how to proceed with publication.
